FLOOR DEBATE

LB 543

mentioned before when I quoted an eminent Republican philosopher, trust but verify. And Senator Schimek can probably close with something from an eminent Democratic philosopher. (Laugh) Thank you, Mr. President.

PRESIDENT MAURSTAD: Thank you, Senator Tyson. Senator Schimek, you're recognized to close.

SENATOR SCHIMEK: Thank you, Mr. President and members. We have nothing to fear but fear itself, Senator Tyson? (Laugh) I appreciate the discussion and I didn't just do this idly. I think it's vitally important that we have this discussion. And I would like to say I...we're not here to cast blame on anybody. What we're here to do is to look for some solutions and to raise the possibilities of solutions. I recognize that this is a wider problem than we're trying to address here today. I am...I am feeling somewhat good about the fact that we're going to have interim studies in at least three out of these four committees this summer and fall, so I think that that will be very positive. Perhaps they can even come at those interim studies from different angles. I am still convinced that we should not have cut this money out of the budget because at some point, even if that money were being used to save on some of the administrative costs you could then use it to fold over into some of the costs of wages for these caregivers. I have been told that next year it is possible that we're going to be back here looking for more money because we're going to run short next year, and I think that's a very real possibility. I'm not saying that to say that wrong decisions were made this year, I...or that I might not have made the same decision, but I'm...I'm concerned and I am hopeful and I am determined that we will address this problem. So, with that, Mr. President, I would like to withdraw my motion to return to Select. And thank you all.

PRESIDENT MAURSTAD: The amendment is withdrawn. Mr. Clerk.

CLERK: Mr. President, Senator Chambers would move to return. Senator, I have AM1893 in front of me. (Legislative Journal page 1868.)
